- 2. Hauling sod/ excavated soil \$300-500
- 3. Landscaping Will bid.
- 4. Mileage(over 30 miles) \$2/mile from point of purchase.
- 5. Excessive Roots, Rock, Debris Will bid.
- 6. Concrete pumping over 100’ Will bid.

Customer Responsibilities:

- 1. Obtain Permits if applicable.
- 2. Determine BYSP location within setbacks
- 3. Proper access for installation equipment(8’)
- 4. Locate all underground lines(gas, phone, cable, septic, sprinkler)
- 5. Remove tree stumps or concrete.

Installation Does Not Include:

- 1. Permits
- 2. Removal/spreading of Sod and Excavated soil.
- 3. Landscaping or sod/ existing concrete repair.
- 4. Replacement/removal of existing electrical/any lines.
- 5. **Electrical hook-up.**

Total cost can only be given once we are on site to evaluate site conditions. Usually the price will be the same as bid on the phone. Some jobs may require a tractor, concrete truck/pump which may leave imprints or damage sod or existing concrete. Homeowner must open fence for access to installation site.
